"BRING ONE FOR THE CHIPPER"
MULCH REQUEST FORM

Thank you for inquiring about our mulch. We recycle the Christmas trees by running them through a wood chipper. The mulch is not double processed like "A" grade shredded mulch that you can purchase at nurseries and garden centers. Some uses for the recycled Christmas tree mulch are nature trails, large, soil exposed areas or as a base for landscape beds. Standard load sizes are between 15-20 cubic yards. We cannot dump half loads.
All dumping is final.

In order to deliver you a load when we are in your area, we will need some information.

Name: _____

Address: _____

_____

Phone#: _____**Email**: _____

Authorizing Signature: _____ **Date**: _____

Please keep in mind that our trucks are large. Choose a location that is easily accessible with no overhead tree limbs or power lines. **Due to the size of our trucks, we cannot be held responsible for any damage to driveways or landscapes. Please draw a diagram of where you want the mulch dumped on your property.**

Number of loads: _____

Mulch is a great way to protect your trees and shrubs if applied properly. Never apply mulch more than 3-4 inches in thickness. To get on our mulch request list just fill out this form and email, mail or fax back to us. If you have any further questions, please give us a call.
