`COBB COUNTY
DEPARTMENT OF TRANSPORTATION
ENGINEERING DIVISION

**2027 Countywide Unit Price Contract**
**November 9, 2026**

# ADDENDUM NO. 2

---

**BIDS WILL BE RECEIVED UNTIL November 12, 2026 – 12:00 Noon Local Time**

---

The following addendum hereby amends and/or modifies the Bid Documents and Contract Specifications as issued for this project. All bidders are subject to the provisions of this Addendum. **Bidders shall acknowledge receipt of this addendum and utilize the latest bid schedule.**

**Electronic bids** will be received via **Bid Express at www.bidexpress.com** on behalf of the Cobb County Board of Commissioners, **until 12:00 noon, November 12, 2026. NO BIDS WILL BE ACCEPTED AFTER THE 12:00 NOON DEADLINE.** No submitted bid may be withdrawn after the scheduled bid opening for a period of ninety (90) days.

**All bids shall be accompanied by an Electronic Bid Bond via Bid Express a Paper Bid Bond, or a Certified Check delivered in a sealed envelope, indicating the project name and project number, to Cobb County Procurement Services Department, 1828 West Oak Parkway, Marietta, Georgia, 30062, BEFORE THE 12:00 NOON DEADLINE. Bid Bond shall be drawn in favor of the Board of Commissioners, Cobb County, Georgia, in the amount of five percent (5%) of the bid for the complete work.**

**NOTE: Addenda and plan holder lists will be posted online at the following websites:**
**Cobb County Procurement Services**
**https://www.cobbcounty.gov/procurement-services/bidding-opportunities**
**Cobb County DOT**
**https://www.cobbcounty.gov/transportation/current-bids-rfps**
**Bid Express**
**www.bidexpress.com**

**Receipt of addenda must be acknowledged online at www.bidexpress.com. It is the bidder's ultimate responsibility to ensure that they have all applicable addenda prior to bid submittal and to utilize the latest bid schedule.**

Proposals may be rejected if any of the Unit Prices are obviously unbalanced. The County will decide whether any Unit Prices are unbalanced either excessively above or below a reasonable cost analysis value determined by the Engineer, particularly if these unbalanced amounts are substantial and contrary to the interest on the County.

In an effort to meet Title VI requirements, contractors are encouraged to fill out the form in the bid package. This is strictly voluntary. Please place form in a separate envelope and deliver to Cobb County Purchasing Department.

## I. QUESTIONS/ANSWERS

Q. Advertisement for Bids, GDOT Prequalification. The Advertisement states that "All bidders submitting bids shall be prequalified or registered with the Georgia Department of Transportation (GDOT)." Please confirm that, for bidders submitting on Groups 750 and 900 only, GDOT vendor registration satisfies this requirement and GDOT construction prequalification is not required.

**A. All bidders submitting bids shall be prequalified or registered with the Georgia Department of Transportation (GDOT) per Section 102. Pre-qualification or registration shall be verified before any work will be awarded.**

Q. Section Two, Contract, Federal Contract Provisions (2 CFR Part 200). Section Six states that Group 750 work will be reimbursed under a FEMA declared emergency event, and Section 103.02 recognizes that work may be funded in whole or in part with federal funds. The contract documents reference Title VI of the Civil Rights Act, the Anti-Kickback Act, and the Contract Work Hours and Safety Standards Act, but do not include the contract provisions required by 2 CFR 200.327 and Appendix II to 2 CFR Part 200 for contracts paid with federal financial assistance. To protect the County's eligibility for FEMA Public Assistance reimbursement, please confirm that the County will include all applicable 2 CFR Part 200 provisions in the contract and in any project, task order, or subsequent contract issued under Groups 750 and 900, including: remedies for breach; termination for cause and for convenience; Equal Employment Opportunity; Contract Work Hours and Safety Standards Act; Clean Air Act and Federal Water Pollution Control Act; debarment and suspension; Byrd Anti-Lobbying Amendment; procurement of recovered materials (2 CFR 200.323); prohibition on certain telecommunications and video surveillance services or equipment (2 CFR 200.216); domestic preferences (2 CFR 200.322); and access to records. If so, will the County issue these provisions by addendum before bid opening?

**A. Contractors submitting bids for these groups are required to be familiar with the Federal Contract Provisions. For any future award of work utilizing federal financial assistance the appropriate provisions will be included at that time.**

Q. Section Two, Contract, Page 2.1, Contract Term. The Advertisement states an initial term of two (2) years, renewable for one (1) additional year. Contract page 2.1 states that the total duration shall not exceed three (3) years but describes the term as "basic one (1) year and one (1) year option." Please confirm the length of the initial term and the renewal option.

A. **The total duration of this contract, including the exercise of any options, shall not exceed three (3) years (basic two (2) year and one (1) year option).**

Q. Section Two, Contract, Page 2.1, Unit Price Adjustments. The Contract provides that unit prices remain firm for the initial term and any renewal. Because disaster debris costs (fuel, labor, equipment, and disposal) can change significantly over a three-year period, would the County consider allowing an annual price adjustment for Groups 750 and 900 at renewal, tied to a published index such as the Consumer Price Index?

**A. No annual price adjustment will be allowed as part of this bid.**

Q. Sections 103.02 and 104.01, Award. Section 103.02 states that a contract "will be awarded to the lowest reliable Bidder," while Section 104.01 states that it is "the intent of the County to award this contract to all qualified Bidders who submit acceptable proposals." Please confirm that the County intends to award Groups 750 and 900 to all qualified, responsive bidders rather than only to the lowest bidder in each group.

**A. Yes, the County intends to award Groups 750 and 900 to all qualified, responsive bidders.**

Q. Section 104.01, Activation Order for Group 750. Following a disaster event, does the County intend to rank the awarded Group 750 contractors in advance (for example, primary, secondary, and tertiary)? If so, on what basis will the ranking be determined? Because Methods A and B in Section 104.01 rely on a schedule of estimated quantities, which is generally not available in the first days after an event, please describe how the County will select the contractor to be activated first.

**A. The selection of contractor or contractors for actual work will be decided on a case-by case basis depending on the magnitude of the disaster/emergency event and the number of available contractors. Factors to be considered include overall cost and the ability to respond with sufficient resources in a timely manner.**

Q. Section 104.01, Selection for Emergency Debris Work. Disaster debris management contracts are most often awarded on a best value basis rather than lowest price alone. When selecting among awarded Group 750 contractors for an emergency activation, would the County consider each contractor's disaster debris experience, available capacity, and ability to mobilize, in addition to unit prices?

**A. Yes, see previous answer.**

Q. Section 104.01, Project Value Limit. Section 104.01 states that the maximum amount of any single project is generally $500,000.00 unless otherwise authorized by the County Manager and approved by the Board of Commissioners. Debris removal following a declared event frequently exceeds this amount. Please describe how the County intends to authorize Group 750 work above $500,000.00, for example through a single task order approved by the Board or by dividing the event into multiple projects.

**A. The Department would receive authorization from the County Manager and approval from the Board of Commissioners should the magnitude of the disaster/emergency event require work in excess of $500,000.**

Q. Section 104.01.B and Contract Page 2.1, Bonds and Bid Procedures for Emergency Work. Please confirm whether the Modified Unit Price Contract procedure (Method B), including the 5% bid bond and the request for bids from all approved unit price contractors, will apply to Group 750 emergency activations. If performance and payment bonds are required for activations exceeding $25,000.00, please confirm how the bond amount will be determined when total quantities are not known at the time of the Notice to Proceed. Please also clarify the meaning of "$25,000.00 concurrency" on Contract page 2.1.

A. **The performance and payment bonds will be required once the scope of work is finalized, and total estimated cost is determined. "$25,000 concurrency" refers to the aggregate value of concurrently awarded work.**

Q. Contract Page 2.2 and Section 104.01, Mobilization Time. The Contract and Section 104.01 require work to begin within ten (10) calendar days of the Notice to Proceed. Please confirm the mobilization time the County expects for Group 750 work following a declared event, and whether a separate emergency notice to proceed procedure will be used.

A. **For a disaster/emergency event, time is of the essence. The Department will work with each contractor to determine the appropriate Notice to Proceed.**

Q. Special Provision 108.08, Liquidated Damages. Please confirm whether liquidated damages of $500.00 per calendar day will apply to Group 750 debris removal. If so, please describe how contract time will be established, given that debris quantities and FEMA deadlines are generally not known when work is assigned.

A. **The contract time for a disaster/emergency event may not be fully determinable at the time work commences. The Department may choose to waive the Liquidated Damages for Group 750.**

Q. Section 109.07, Retainage. Please confirm whether the County intends to withhold retainage of up to 5% on Group 750 and Group 900 invoices.

A. **The County intends to hold up to 5% retainage unless otherwise not allowed by State or Federal rules and regulations.**

Q. Section Six, Group 750, Governing Guidance and Scope. Section Six states that Group 750 work will be performed "in accordance with FEMA Debris Management Guidelines." Please confirm which FEMA documents govern eligibility and performance, for example the FEMA Public Assistance Program and Policy Guide (PAPPG), Version 5 (January 2025). The Group 750 Schedule of Items does not include line items for hazardous trees, hazardous hanging limbs, or hazardous leaning trees. Please confirm whether the County intends that work to be performed under Group 750, under Group 650 (Tree/Limb Removal and Trimming), or by another method.

A. **Group 750 will follow the FEMA Public Assistance Program and Policy Guide (PAPPG), Version 5 (January 2025). For items of work not included in the Bid Schedule, prices will be mutually agreed upon between the County and the contractor prior to contract execution for actual work.**

Q. Section Six, Group 900, FEMA Schedule of Equipment Rates. Section Six directs Group 900 bidders to add operator labor to the rates in FEMA's Schedule of Equipment Rates. Both 44 CFR § 206.228 and FEMA's Schedule of Equipment Rates (https://www.fema.gov/assistance/public/schedule-equipment-rates) state that those rates apply only to applicant-owned equipment, not contractor equipment. Please confirm that bidders may submit their own hourly rates for Group 900 equipment with operator, and are not required to bid FEMA's equipment rates plus operator labor.

**A. For contractor owned equipment bidders should provide reasonable market-based hourly equipment rates, including operator labor, subject to applicable federal cost reasonableness and procurement requirements.**

Q. Group 750, Line Nos. 4735, 4740, 4750, 4755, 4765, and 4780, Disposal Excluding Tipping Fees. Please confirm that tipping fees for these items will be treated as a pass-through cost, paid by the contractor and invoiced to the County at direct cost with no markup, and describe the documentation the County will require for reimbursement.

**A. Tipping fees will be treated as a pass-through cost. Copies of actual paid receipts and verification (weight tickets, etc.) will be required.**

Q. Group 750, Line Nos. 4765 and 4770, Building Debris Disposal In County. Line No. 4765 (Excluding Tip Fees) and Line No. 4770 (Including Tip Fees) cover the same activity. Please clarify when each item will be used. Because a contractor cannot control landfill rates or guarantee them for the term of the contract, would the County consider treating tipping fees as a pass-through cost for all items? If not, how will the County compare bids on Line No. 4770 on an equal basis when each bidder may assume a different tipping fee?

**A. LIN 4765 is intended for building debris disposal when tipping fees are excluded from the contractor's unit price and accounted for separately. LIN 4770 is intended for building debris disposal when tipping fees are included in the contractor's unit price. Bidders should provide pricing for each item as listed in the bid schedule. The County intends to evaluate bids based on the submitted unit prices, including tipping fees where applicable. Tipping fees should not be treated as a separate pass-through cost under Line No. 4770. For information, the average fee for vegetative waste is $48.80 per ton at GFL Environmental Disposal and household waste is $60 per ton at Waste Management.**

Q. Group 750, Line No. 4745, White Goods. Please confirm whether white goods pick up and haul includes the removal and disposal of putrescent food from refrigerators and freezers.

**A. The removal and disposal of food or other contents from refrigerators and freezers is not included in the White Goods pickup and haul item. Refrigerators and freezers must be emptied of all contents prior to collection.**

Q. Group 750, Line Nos. 4720, 4725, and 4730, Temporary Debris Storage and Reduction Sites. Please provide the locations of all Temporary Debris Storage and Reduction Sites (TDSRs) the County has identified.

**A. The temporary debris storage and reduction sites will be confirmed at the time of the emergency event(s). For bidding purposes, use the following locations: 1890 County Services Pkwy, Marietta, Ga, 30008; 800 Merritt Rd, Marietta, Ga, 30090; 2320 Pitner Rd, Acworth, Ga, 30101**

Q. Group 900, Line Nos. 5385 and 5390, Building Debris Disposal. Group 900 includes Line Nos. 5385 (Building Debris Disposal In County, Excluding Tip Fees) and 5390 (Building Debris Disposal In County, Including Tip Fees), which also appear in Group 750 as Line Nos. 4765 and 4770. Please confirm whether these items are intended to appear in both groups, whether bidders must price them in Group 900 to submit a complete Group 900 bid, and which group's price will apply when the work is performed.

**A. Yes the items are intended to be in both groups. The price(s) that will apply will depend on which Group the work is awarded in.**

Q. Prior Events. What was the last event that required the County to activate its disaster debris removal contractor, and approximately how many cubic yards of debris were collected in that event?

**A. 2009 Flood event. The debris amount is unknown.**

Q, Current Contractors. Which contractors were awarded Groups 750 and 900 under the 2024 Countywide Unit Price Contract? Please provide the bid tabulation for Groups 750 and 900 from that solicitation.

**A. Group 750 – Gracie-Gray and Ash-Britt; Group 900 – Ash-Britt.**

Q. Debris Monitoring Firm. Does the County currently have a disaster debris monitoring firm under contract, and if so, with which firm or firms?

**A. No.**

Q. County Equipment. Does the County own any self-loading grapple trucks, and if so, how many?

**A. Yes, three (3) units.**

Q. Countywide Use and State Routes. Does the County have Memorandums of Understanding (MOUs) or Mutual Aid agreements in place with any incorporated municipalities within Cobb County that would allow them to use this contract for disaster debris management services, and if so, which ones? Will this contract be used to perform services on any state routes within the County in lieu of GDOT performing those services? If so, does the County have a pre-existing MOU or Mutual Aid agreement with GDOT that authorizes the County to perform debris removal on state routes?

**A. No MOUs or agreements exist. The County does not anticipate work within municipalities or on State Routes, however in some cases it may be required. The County will coordinate with each municipality and GDOT as required.**
